DESIGNED BY SNOWBOARDERS

ADVANCED CONTROL.

Progression and innovation is what drives us. The feeling of stomping that trick in the park, bombing through trees, or dropping backcountry cliffs is like no other. Our goal is to bring as much of that feeling as possible to the pavement, with a setup designed to ride exactly like a snowboard. Re-engineered G3 trucks make it possible to thrash as hard as you do on your snowboard: throw drawn-out drifts, butters, edge in and slide to a stop, bomb the steepest hills, or just cruise that 8 mile mountain pass you wish was covered in snow. Just remember what snowboarding was all about when you first strapped into that board. Take that feeling everywhere.

FOR SNOWBOARDERS 2008 2009

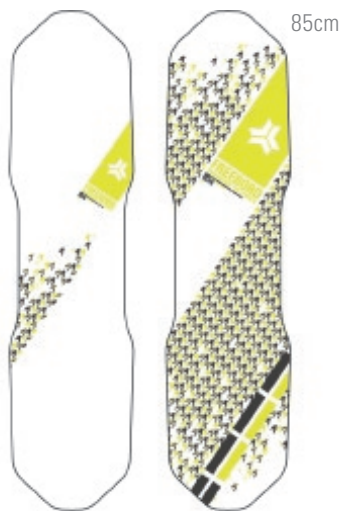

CORE SETUP

The Core Setup w/S2 Bindings is Freebord's basic complete. It comes with everything needed to get you dropping over ridge lines all around your hood. All you need now is your own chairlift or a buddy to drive you back up the slope.

ELITE

+ The all new white board that has nothing to do with
 + Shaun. Neon and metallic Houndstooth for the trend-
 + setters out there looking to shred in retro '80's leg
 + warmers and headbands. This board cracks necks like
 + a MILF stuck in 1985.

DECK SIZE	HEIGHT RANGE	STANCE WIDTH
85cm (33.5")	183cm-193cm (6'0" - 6'4")	58.4cm (23.0")
80cm (31.5")	173cm-183cm (5'8" - 6'0")	55.9cm (22.0")
75cm (29.5")	145cm-173cm (4'9" - 5'8")	53.3cm (21.0")

+ Canadian Rock Maple 7 ply
 + Twin Tip construction
 + Die-Cut white griptape
 + Painted sidewall

HAZE

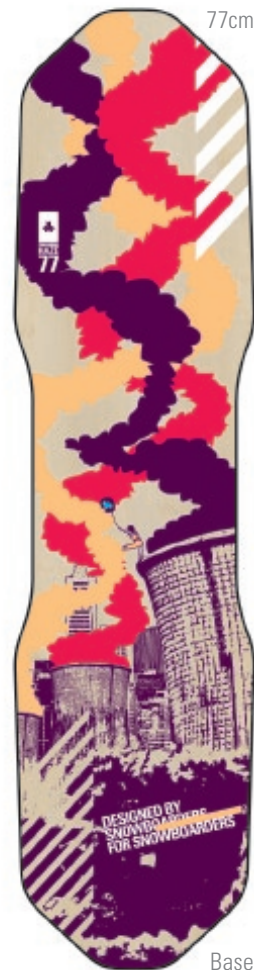

Let's all pump more greenhouse gases into the atmosphere so more girls become hippies and are down for free love. Or you could just sport this environmental statement and ride the f@#! out of it like you're saving the world.

DECK SIZE	HEIGHT RANGE	STANCE WIDTH
87cm (33.5")	188cm-221cm (6'2"-7'3")	59.7cm (23.5")
83cm (31.5")	178cm-188cm (5'10"-6'2")	57.2cm (22.5")
77cm (29.5")	168cm-178cm (5'6"-5'10")	54.6cm (21.5")

Canadian Rock Maple 7 ply
Twin Tip construction
Die-Cut griptape
Natural wood

RIOT!

* Punk is all about being an individual and not answering to the man! Here's some inspiration to fuel the counterculture fire: historical images of anarchy in a mashed-up mosh pit style. *

G3 TRUCK SYSTEM

+ Recently released after years of research and development with snowboarders. The new G3 truck delivers a precision ride that can bomb any hill, and stand up to the hits for the rider looking to thrash.
+ Available complete or w/o wheels.

+ T6 aluminum
+ Black powder-coated
+ Width: 13.55"
+ Length: 7.10"

S2 BINDINGS

The S2 Bindings are Freebord's 2nd generation bindings. With six vertical adjustment variables and +30/-30 degrees of rotation, the S2's can be dialed in to perfectly fit your riding style. The S2's molded tongue is designed for comfort and fits snugly across the top of your foot, giving maximum edge control.

Glass filled nylon
Rotationally adjustable
Vertically adjustable
Stainless Steel Base

UPGRADE WHEEL KIT

SLASHERS 80mm 80a

Slashers are specially formulated to provide the ideal balance of grip, stopping power, and durability. With a custom chemistry designed and poured exclusively for Freebord, this wheel is the all around favorite amongst top riders. Must be paired with base wheels no smaller than 67mm available in the upgrade wheel kit.

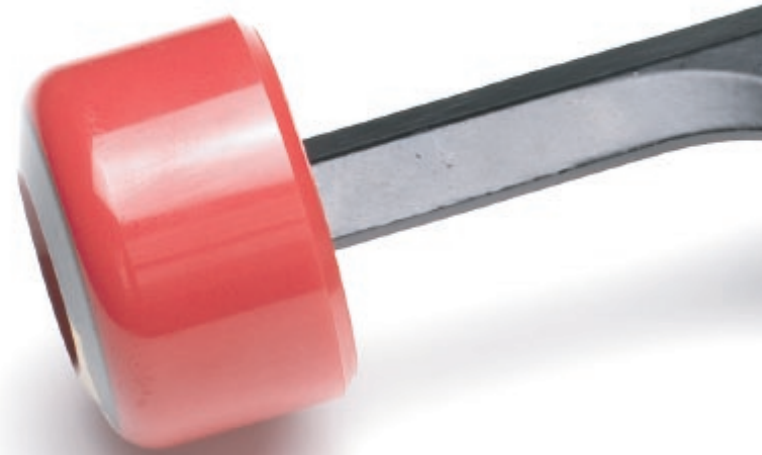

LOWRIDERS 70mm 80a

Freebord's stock 70MM wheels are perfect for the novice rider to dial in their skills before stepping up to a premium set. Lowriders are ideal for learning, but even after you got it down you can still bomb with the pros or stomp out those tricks. Must be paired with base wheels no smaller than 58mm.
